

HOW WILL REDISTRICTING IMPACT YOUR LIFE FOR THE NEXT TEN YEARS?

Do you want elected officials to care about:

Then your voice should matter in your district.

Based on the 2020 Census results, congressional, state senate, and assembly district maps must be redrawn.

If a district is drawn that divides your neighborhood into 2+ districts, your community will have less power.

Lets keep communities who share common interests, culture, and economic factors together! This way, elected leaders will respond to your concerns.

What can you do?

Look up the local, state, and national district that you live in:
